- Poker

Milton Lake Lodge is a high-end fly in remote wilderness lodge. With a strong reputation as a world class fishery Milton Lake Lodge has attracted anglers who seek out the best fishing on planet earth.

In recent years the extreme wilderness setting of Milton Lake, coupled with the exquisite lodge and professional hospitality team has attracted a more diverse group of clientele. With the ability to host corporate gatherings, team building and incentive retreats Milton Lake Lodge has been investing in upgrades to be able to offer a more comprehensive wilderness experience.

Milton Lake Lodge prioritizes guest experience above all else. As a small lodge in a remote setting your wishes are their goals. Their desire to adapt to the needs of each individual group results in a team that is flexible and accommodating.

All groups of 6 or more will have exclusive access to the lodge and the ability to create a unique timetable of activities that are dependant on the needs of the group. Milton Lake Lodge encourages groups and guests to explore all of the attractions and activities so as to develop a truly deep appreciation for the wilderness in which it exists.

Fishing is obviously one of the headline attractions and it is a great location for people with little-to-no fishing experience. Catch some fresh northern pike or lake trout and our chef will prepare a phenomenal shore lunch on a remote island in a corner of the lake.

Take a hike to some of the look out points and discover the ruins of old trapper's cabins that were used more than a 100 years ago. Explore the river looking for moose which regularly come into the system to feed on the abundant grasses found in the shallow waters.

The adventurous can portage a canoe into one of the neighbouring lakes and explore areas that very few humans have ever seen or touched.

Cap off the day with cocktails and appetizers served on the deck or around the campfire overlooking the incredible waters of Milton Lake, and, with a bit of luck, there may even be the chance to experience the Aurora Borealis.

If you are looking for something different and something special then contact Milton Lake Lodge to discuss what might be possible. There are numerous possibilities to discuss including incorporating our remote outpost camps on different lakes to allow for larger groups and an even more diverse experience. Give us a call and tell us your dream!
